

# Domino dizaines et unités

Objectif: Associer représentations décimales et écritures chiffrées des nombres jusqu'à 69.

Matériel: Les cartes. 5 joueurs

Déroulement: On distribue 4 cartes à chaque joueur. Le reste constitue la pioche.

Le premier joueur pose la carte de son choix. Le joueur situé à sa gauche continue, s'il peut, il pose une carte, si non il pioche.

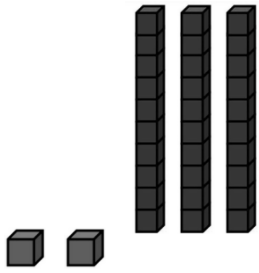

Deux façons de gagner :

- Le gagnant est celui qui n'a plus de cartes.

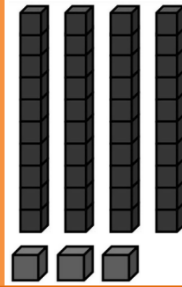

Ou

- Tous les joueurs gagnent quand toutes les cartes ont été posées.
