

Pyramide ★

1	2	3	4	5
6	7	8	9	10
11	12	13	14	15
16	17	18	19	20
21	22	23	24	25

Comment ça marche ?

La case au-dessus de deux autres est obtenue en additionnant les deux nombres

Pour trouver ce nombre, On utilise la règle de la pyramide :
 $\dots + 7 = 9$
Donc le nombre qui manque c'est 2
