

## CALCULS POSES CM1

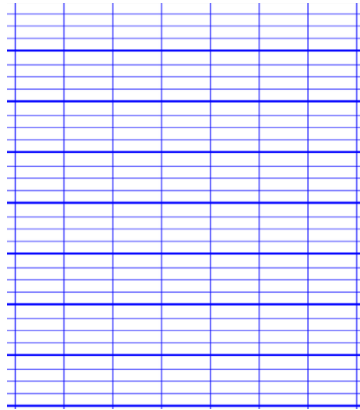

Pose et calcule ces opérations. Tu peux vérifier ensuite avec une calculatrice le résultat. Pense bien aux retenues et à présenter correctement les opérations pour éviter les erreurs. Si tu as besoin, prends tes tables de multiplication pour les multiplications et divisions.

### L'addition

$546 + 12 + 8004 = \dots\dots\dots$

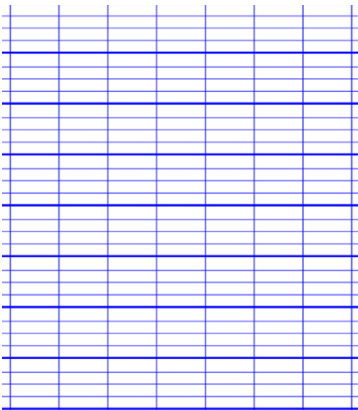

$12\ 546 + 7833 = \dots\dots\dots$

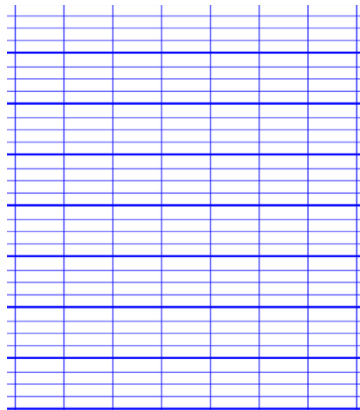

### La soustraction

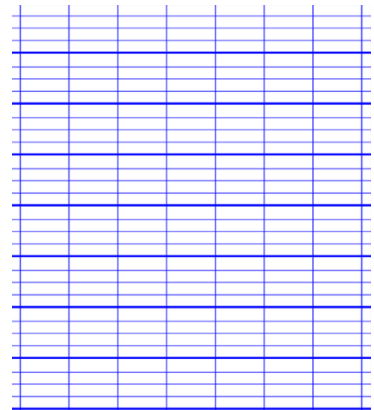

$496 - 233 = \dots\dots\dots$

$5349 - 1275 = \dots\dots\dots$

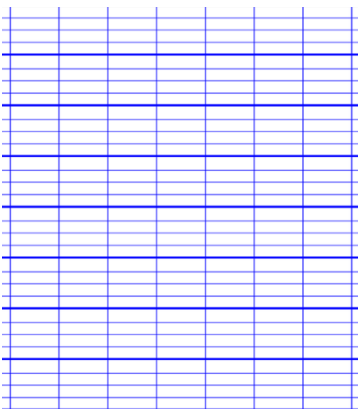

$6004 - 3844 = \dots\dots\dots$

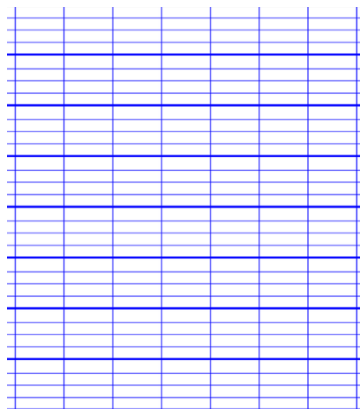

### La multiplication

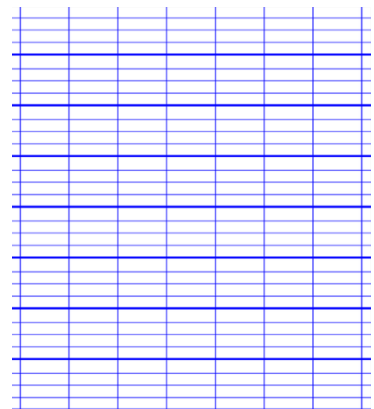

$547 \times 46 = \dots\dots\dots$

$2\ 316 \times 89 = \dots\dots\dots$

$84 \times 307 = \dots\dots\dots$

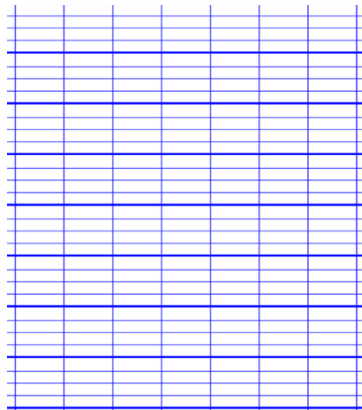

## La division

$$6\ 487 : 3 = \dots\dots\dots$$

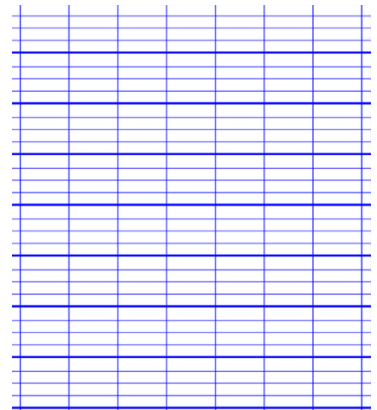

$$q = \dots\dots\dots r = \dots < 3$$

$$4\ 812 : 25 = \dots\dots\dots$$

$$q = \dots\dots\dots r = \dots < 25$$

$$715 : 15 = \dots\dots\dots$$

$$q = \dots\dots\dots r = \dots < \dots$$
