

## Correction des exercices sur le périmètre

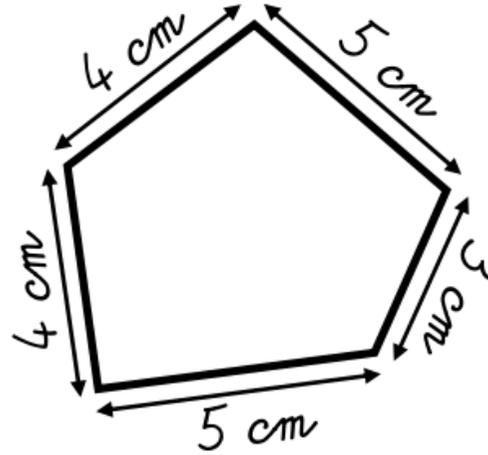

Calcule le périmètre de ces polygones.

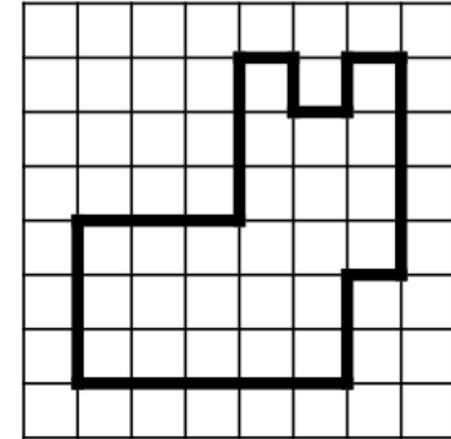

$$\begin{array}{l} P = 5 + 5 + 7 \\ P = 17 \text{ cm} \end{array}$$

$$\begin{array}{l} P = 2+1+3+3+3+1+2+5 \\ P = 20 \text{ carreaux} \end{array}$$

$$\begin{array}{l} P = 4 + 5 + 3 + 5 + 4 \\ P = 21 \text{ cm} \end{array}$$

$$\begin{array}{l} P = 3+3+5+4+3+5+3 \\ P = 26 \text{ carreaux} \end{array}$$

2/ Calcule le périmètre de ce carré et ce rectangle.

Périmètre du carré =  $13 \times 4 = 52 \text{ cm}$

Périmètre du rectangle =  $(8 + 15) \times 2 = 23 \times 2 = 46 \text{ cm}$
